

THE CHRONICLE

VOL. XIII. No. 35.

CROSSFIELD, ALBERTA, THURSDAY, SEPTEMBER 30th, 1920.

PRICE \$1.50 A YEAR.

WM. LAUT

We have done Our Best---
Now it is up to You.

Our obligations are heavy, we are stooping under the load, we want our money---NOW---AT ONCE.

Through the two lean years which have passed, we have done our best, we have crowded nobody---now we want our money. If you are threshing bring in OUR load and let us have that---every bit helps.

This business requires money to run, and if we are to maintain the same standard of service, and the same stocks we must get all our accounts paid this fall.

If this means you, come in NOW.

William Laut,
Groceries, Hardware, Implements, Harness.

HARVEST EXPENSES

Harvest time brings expenses which must be met with ready money. Should you need an advance to help you over this busy season, interview this Bank. We are prepared to help all responsible farmers. 50A

THE CANADIAN BANK OF COMMERCE

The Coming Liquor Referendum

What is regarded by many as the final battle in the long war waged against the liquor traffic in Canada will be fought at the ballot boxes in Manitoba, Saskatchewan and Alberta on the 25th of October. The necessary machinery for the taking of the referendum vote on that date has already been set in motion and the compilation of the lists for qualified voters is in progress. The opposing forces are likewise lining up for the final test of strength.

Apart altogether from the opinions which may be held by readers of this paper on the question at issue, namely, whether bone-dry prohibition shall be made effective or not, it is clearly the duty of all citizens qualified to vote to make certain of the fact that their names are properly included in the voters' lists, and, equally so, it is the duty of all, regardless of the opinions held by them, to record their votes on October 25 on the question being submitted to the people.

In these three Prairie Provinces, prohibition of the sale of intoxicating liquors for beverage purposes has for some years been in effect. There is, however, nothing to prevent a person in any one of these Provinces from buying liquor in another Province and having it shipped to him for his personal use. The result is, of course, that while there is prohibition in name, and actual prohibition of local sale, there is no truly effective prohibition of the use of intoxicants.

Through the votes cast by them in the referendum on October 25 the men and women of Western Canada are to decide whether, in addition to prohibition of local sale within a Province, there shall be prohibition of importation of liquor into any one Province from any other Province or country. In other words, whether it shall be made illegal for any person to obtain liquor in any manner whatsoever, except in very limited quantities on a doctor's prescription.

In the referendum on October 25 the following form of ballot will be used:

Shall the importation or bringing of intoxicating liquors into the Province be forbidden?	NO
Shall the importation or bringing of intoxicating liquors into the Province be forbidden?	YES

The voter who is in favor of absolute prohibition will place an X in the space opposite the word "Yes"; the voter who is in favor of allowing liquor to come into the Province as at present will place an X in the space opposite the word "No." In other words a person votes "Yes" if he favors bone-dry prohibition; he votes "No" if he desires that importation shall continue.

Without presuming to say in this article how people shall vote, or even expressing an opinion as to the course of action which in the light of past experiences would seem to be the wisest course to follow in the interests of all, one thing can and should be said with all the emphasis that can possibly be laid upon it. It is this:

Men and women should mark their ballots in such a way as to express their honest convictions on this question in order that the vote on October 25 may be a true expression of the will of the people. A vote for bone-dry prohibition should be a positive declaration on the part of the voter that he or she will absolutely refrain from the use of intoxicating liquors, that they will make no attempt to secure such liquors, that they will throw the whole weight of their influence in the direction of seeing that the law they thus ask for is lived up to and rigidly enforced. A "Yes" vote should be a pledge on the part of the voter to assist the officers of the law to efficiently enforce that law.

The time for camouflage is past. There should be no more hypocrisy, with a person voting one way and acting another. If the majority vote is to forbid importation of liquor, then the Government and officers of the law ought to be assured that they can count upon the men and women who make up that majority to assist them in every way to make the law fully effective and a success.

The man who votes for bone-dry prohibition and proceeds at the same time to stock up his cellar in advance with liquor is a hypocrite. The man or woman who votes for bone-dry prohibition, and later writes to the Government or the police stating that "So-and-so" is violating the law but that their names must not be used as informants and that they will not give evidence which may be in their possession in order to convict, is a coward and not a sincere prohibitionist.

The referendum vote on October 25 should be regarded as a clear-cut show-down on this question.

BUNIONS NO JOKE

Not to the man who has to move about, but a slight application of Putnam's softens the thickest tissue and cures the bunion quickly. Just as good for warts, lumps and callouses is Putnam's Painless Corn Extractor. Use no other, 25c at all dealers.

The Rebound Courteous.

Briggs—Ought a man to give up his strap in a surface car to a lady? Griggs—Certainly. If she is young and handsome, he may be forced to cling to her going around a curve.

WHEN BABY IS CROSS

Mothers, when your baby is cross—when he cries a great deal and no amount of attention or petting cheers him—something is the matter. It is not the nature of little ones to be cross and peevish—the well child is a happy child. Give him a dose of Baby's Own Tablets and he will soon be well again. The Tablets are a mild but thorough laxative which regulate the bowels and stomach; banish constipation and indigestion; break up colds and simple fevers and relieve the other minor ills of little ones. Concerning them Mrs. Oscar Bedard, Ste. Sophie, Que., writes: "Baby's Own Tablets are an excellent remedy for constipation. They relieved my little one when nothing else would, and I can strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Elevator Charges Up.

According to Hon. Geo. Langley, Minister of Municipal Affairs and Director of the Saskatchewan Co-operative Elevator Co., as a result of representations made to the Board of Grain Commissioners by the elevator men, a reasonable advance in storage and terminal elevators will be considered by the commissioners this year.

Peevish, pale, restless and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

Many a man who is whole-souled on the surface wouldn't stand probing.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses more power in concentrated form than one hundred times the quantity of many varied uses to which it can be put. Make it the poor man's friend. No dealer's stock is complete without it.

After all, there is a good deal of humanity in human nature.

Mina's Liniment Relieves Neuralgia.

W. N. U. 1431

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

MAGIC BAKING POWDER contains no alum or egg albumen and is guaranteed to be composed of the ingredients printed on the label—and none other.

Made in Canada By Canadians
For Canadians

The Color of Your Eyes

Where the Baby Gets His Blue Eyes From.

Where baby got his blue eyes from is said to have been discovered by Dr. H. Bryn, of Norway.

After examining 834 persons, Dr. Bryn found that when all the parents and grandparents had blue eyes, all the children were blue-eyed, while when some of the grandparents' eyes were brown, only about 90 out of 100 of the children had blue eyes.

If both parents had blue eyes only 70 per cent. of the children had eyes of the same color, the remaining 25 per cent. being blue. If one parent was blue-eyed and the other brown-eyed, blue and brown eyes were equally divided among the children.

How's This?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surfaces of the System. Sold by druggists for over forty years. F. J. Cheney & Co., Toledo Ohio. Price 75c. Testimonials free.

Fox Farming Pays.

What farm industry pays better than breeding foxes?

Last spring an average of four to a litter raised was reported from the ranches heard from. That means between two and three thousand dollars to a pair of foxes!

Some of the old-timers in the business have from seventy-five to two hundred youngsters on their ranches. As these men breed only foxes of good quality, it is safe to estimate the value of the pups at \$500 to \$750 apiece.

Evidently there is money in the business.

One-half of the world envies the other half because it doesn't know how it lives.

Following in the footsteps of an indolent man is expensive travelling.

Helium in Canada.

Prof. McLennan, who was sent to Canada recently by the British Admiralty to devise a method of securing helium from natural gases, has reported that Alberta alone can supply over ten million cubic feet of helium annually, and other parts of the Empire another two million cubic feet. This quantity, he estimates, is sufficient to maintain a considerable number of airships, that cannot be brought down by airplane attack in the usual manner. Helium is a rare element, with a lifting power second only to hydrogen, and is non-inflammable. It can also be obtained in generous quantities in New Brunswick.

Mina's Liniment For Dandruff.

The Real Question.

The Farmer—Ain't that a fine cow? The City Man—How many miles will she do on a gallon of milk?—Life.

Lots of women will give up easy jobs and good salaries for the sake of working all the rest of their lives for their board and clothes.

Rivals the Spoonerville Line.

Passenger (impatiently).—Say, conductor, can't you have this train run a bit faster?

Conductor.—Sir! I've been on this line 15 years and—
Passenger.—Great guns! At what station did you get on?

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's, the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

Corns and warts—disappear when treated with Holloway's Corn Cure without leaving a scar.

Mrs. Cassidy—"Norah, Maguire is takin' on awfull! Her husband's got three years, but he can get wan off for good behavior!"

Mrs. O'Brien—"Tell her to rest away! Sure an' he never behaves himself!"—Edinburgh Scotsman.

POSTUM CEREAL

used instead of coffee means better nights and brighter days for every one when coffee disagrees

Postum Cereal should be boiled a full twenty minutes. Another form—Instant Postum is made instantly in the cup.

Both kinds are sold by grocers everywhere

Made by Canadian Postum Cereal Co., Ltd. Windsor, Ontario.

SUGAR--15c

WE HAVE a limited quantity of the genuine Brown West Indian Cane Sugar, which we will dispose of in the original sacks of 200 lbs. each at 15 cents per pound, all charges paid to your station.

This is a rare opportunity for housekeepers, bakers, lumber operators, etc. It is the real old-fashioned St. Kitts Sugar—better than refined for baking, brown bread, mincemeat, baked beans, dark preserves and pickles. SAMPLES WILL BE SENT TO ALL INTERESTED.

Local and General

Mr. F. H. Tanner was a visitor to Calgary on Saturday last.

Mr. and Mrs. A. C. McLees were visitors to Carstairs on Sunday last.

We understand that Mr. J. F. Percival, of Brandon, Man. has taken up duties as manager of the local branch of the Imperial Bank as successor to Mr. L. V. Leitch.

The Ladies Aid of the Union Church are giving a Thanksgiving Dinner on Monday, October 18th from 6 to 8 p. m. in the old Post Office building. They are asking for donations of food, cream, butter and bread from the country ladies and cooked potatoes, salads, pies and cakes from the town ladies. Donations whether large or small will certainly be appreciated. Do what you can to help us along. For any further information phone Mrs. R. Whitfield or Mrs. M. Thomas.

Mrs. L. V. Leitch and baby left on Saturday last for Edmonton where they will reside in future. Mr. Leitch having accepted a position in that city. We feel that we are expressing the feelings of the community when we say we are sorry to see him leave Crossfield, he was a most highly respected citizen both in business and private life, a member of the Church Board and always to the fore in anything connected with real clean sport. As manager of the Imperial Bank locally, he has done much to further the business of that institution never letting an opportunity pass which was to the mutual benefit of the parties concerned. A smoker is to be held tonight (Thursday) in honor of Mr. Leitch, in the O. L. U. Club Room on the occasion of his departure for Edmonton. We have the satisfaction of knowing, whilst it is our loss it will be someone's gain also a step up the ladder for Mr. Leitch.

The annual Rally Day Service at the Union Church last Sunday evening was much enjoyed. Mr. Jeffery, the Superintendent of the Sunday School presided, and gave an interesting address on the importance of the Sunday School. Mrs. Jeffery's class of girls recited Luke XV, verses 3 to 6, dealing with the parable of the ninety and nine. Four of the boys acted as ushers, and two of them also took up the collection. The special offering was for promoting Sunday School work in Canada. The Sunday School sang "Whither Pilgrims are you going?" Rev. R. K. Swenerton spoke on the topic of the programme—"Bring them all in" and urged the evangelistic and missionary motive. Mrs. Keat, the Secretary of the Sunday School reported the number on the roll, the average attendance and the number present at the Rally Day Service. A special chorus "The Whole Wide World for Jesus" was sung heartily. The numbers by the orchestra were well rendered.

Said Lloyd George "The best training I ever had was in the Sunday School. It is what has chiefly enabled me to do my work."

IN THE ESTATE OF Henry Dennis Sanders, late of the Township of York in the County of York, Province of Ontario, Farmer, Deceased.

NOTICE is hereby Given that all persons having claims on the estate of the said Henry Dennis Sanders, who died on the 10th of September, 1919, are required to file with the undersigned solicitors for the executors of his estate by 31st October, 1920, a full statement duly verified of their claims and of any securities held by them, and that after such date the executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims to which notice has been filed or brought to their knowledge.

Dated this 13th September, 1920.

GEN. WRANGEL FORCES SOVIETS TO BEAT RETREAT

ANTI-BOLSHEVİK LEADER
MEETS WITH SUCCESS.

Soviets Report Heavy Engagements
With Poles in Kovel
Area.

Paris.—New successes for the army of Gen. Wrangel, anti-Bolshevik leader in Southern Rumania, are announced in dispatches. On the Don River, Gen. Nazarov has cut the railway line from Voronezh to Tavris. The 34th Division Bolsheviki are reported to have retreated from their positions.

London.—Heavy engagements with the Poles in the region to the east of Brest-Litovsk and in the Kovel area in Volhynia are reported by the Russian Soviet staff in an official statement from Moscow.

Opinion of U.F.A. President

Says Economical Marketing of Wheat
Would Offset Rate Increase.

Calgary.—If the wheat board had been continued for another year, the whole of the increased burden of freight rates on wheat from the western provinces to Port William would have been more than offset by the saving which has been effected by the economical marketing of the wheat crop.

Such was the opinion expressed by H. W. Woods, president of the U.F.A. President Woods' estimate is based on the report of the Bureau of Statistics at Ottawa, of a total wheat crop of 258,000,000 bushels in the three prairie provinces. The average increase in the freight rates would have been offset in this manner, he stated.

Visit Western Canada.

Toronto.—A party of delegates to the Congress of Chambers of Commerce of the British Empire will visit the western provinces and Pacific coast about the middle of October.

Government Resigns.

Prague, Czechoslovakia.—The Czechoslovak Government has resigned.

just a minute, please!

Let's get right down to cases
—Watch cases

OPEN up an Ingersoll Maple Leaf; you'll see a busy little time-keeping plant in operation, happily, smoothly, accurately functioning—every little movement with a meaning all its own.

Now look the Maple Leaf in the face—it's an honest face and a truthful face. And you can believe what you see there.

After all, the primary purpose of a watch is to keep time. The Ingersoll keeps time and does it under conditions that would send any other watch to the repairer's.

And its sturdiness, dependability, and cheapness aren't obtained at the cost of appearance. The Maple Leaf is really a good-looker.

\$3.25—at the nearest dealer's. And that will be quite near. Maple Leaf Radiolite—Tells time in the dark—75c extra or \$4.00.

Maple Leaf, \$3.25

Ingersoll
Made from \$3.25 to \$14.50

Must Pay Debts Due to Germany

Government Will Collect Sums for
Transmission to German
Destination.

Montreal.—All debts payable by Canadian firms to German and other enemy firms at the time of the war which were unpaid, or unpayable from that cause are to be collected through the Canadian Government, according to a new ruling by the Government, and to be paid at full value of the German mark, irrespective of its present value. All amounts of over \$100 are being collected through the department of the secretary of state and are being turned over to the British Government to be transmitted to their German destination. It was stated at the offices of the Canadian Manufacturers' Association, that several firms have such debts owing, in some cases running into large amounts of money.

Wives and Mothers Need Not Have Sore Backaches

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories and on a farm are weak, ailing women, dragged down with "ortiring backache and bearing down pains.

Such suffering isn't natural but it's dangerous, because due to diseased kidneys.

The dizziness, insomnia and other symptoms of kidney complaint cause themselves, they require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanly irregularities, their merit is well known.

Because of their mild soothing and healing effect, Dr. Hamilton's Pills are safe, and are recommended for girls and women of all ages. 25c per box at all dealers. Refuse any substitute for Dr. Hamilton's Pills of Mandrake and Butternut.

Railway Board Sitings

Dates Set for Western Tour of the
Board are Announced

Ottawa.—The Board of Railway Commissioners will hold their first sitting of its western tour in the City Hall at Winnipeg on the morning of Wednesday, September 29. The following morning it will sit at Saskatoon. The remainder of the itinerary is as follows: Edmonton, October 1; Prince George, B.C., October 4; Prince Rupert, B.C., October 6; Victoria, B.C., October 11; Vancouver, October 12; Vernon, October 14; Nelson, October 18; Calgary, Alta., October 20; Medicine Hat, October 22; Regina, Sask., October 24; Winnipeg, October 26; Port William, Ont., October 27.

The application of the express companies for increased rates is to be taken up at different points, as well as other cases which are set down for hearing.

French General Wins

Paris.—Marshal Henri Philippe Petain, commander-in-chief of the French army in France during the later years of the great war, and the French general whose work at Verdun made him a national figure, was married to Madame Haden at the City Hall of the Seventh Ward of Paris, says the Petite Parisienne.

John McCormack Leaves Australia.

London.—A dispatch to the Exchange Telegraph from Melbourne says John McCormack, the singer, has cancelled his Australian engagements and is leaving immediately for London in order to escape the disagreeable sentiments that he has been accorded in his Australian tour since he expressed himself on the Irish question.

Leaves For Europe.

Ottawa.—Two more members of the Government leave for Europe this week. Hon. Dr. Reid and Senator Blondin, both on departmental business.

SOVIETS ARE NOW CAUSING TROUBLE IN ITALY

TO GIVE LABOR MOVEMENT
POLITICAL CHARACTER.

Metal Workers Age Getting Support
From Soviet Russia to Enlarge
Powers.

Rome.—The metal workers' movement was early taken advantage of by the supporters of Soviet Russia in Italy as the basis of a political movement to force Italian recognition of the Moscow Government, according to a document published by the Tribuna. The document, of which the Tribuna says it guarantees the authenticity, provides for permanent soviet conditions and is addressed to the Legion of Red Guards at Torre Annunziata, near Naples, asking the Legion to communicate with the greatest organization ever known. "Taking the favorable opportunity afforded by the vast movement of the metal workers," the document added, "it has been decided to enlarge the movement, giving it a political character."

The document bore the signature, "Vella."

Milan.—The confederation of labor announces that it has no intention of waiting on the will of the masters. The only action possible is acceptance of the men's proposal for collaboration in the management of the various industries, and if the employees do not soon decide in this sense, it is declared that enormous measures will be adopted to intensify the agitation.

Alberta's Big Crop

Bumper Yield of 1915 May Be Increased Four-Fold in Value.

Calgary.—The Herald says today: Alberta's wheat crop in 1915 was sixty million bushels, valued at \$50,000,000. In 1919, it yielded 34,575,000 valued at \$63,349,000. The largest federal official estimate of this year's crop is 82,972,000 which taken at \$2.60 a bushel, will bring Alberta farmers the huge sum of \$215,727,200. This means in other words that the bumper yield of 1915 will this year be increased over fourfold in monetary value, assuming that approximately the present price of wheat holds.

Curlew to Sail on Dec. 30.

Montreal.—The Canadian branch of the Royal Caledonian Curling Club of Scotland announces that the team of 32, representing Canada, will leave for England on December 30 to take part in a series of matches with Scottish teams.

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, alone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

More From Income Taxes

Anticipate Increase From Higher
Rates and Improved Methods of
Collection.

Winnipeg.—A special despatch to the Free Press from its Ottawa correspondent reads: "A \$15,000,000 increase in the receipts of the federal income tax is anticipated for the current fiscal year which ends on March 31 next. Last year's total revenue from this source approximated \$20,000,000. This year it will approximate \$35,000,000."

To the higher rates, a wider incidence and improved methods of collection are attributed the increase. Under the former act prosecutions were both difficult and costly. Under the act as amended last session, they have been much facilitated. A large number of prosecutions have been quietly instituted during the summer, and the effect has been to bring speedy and prompt reply to warning letters addressed to others. As a consequence receipts have much improved.

A staff of 30 auditors is being appointed this week to check up the sales taxes throughout the country.

Reorganize Anzac Navy.

London.—Messages from Sydney say that the Australian navy reorganization is proceeding. Several ships will be scrapped and it is proposed to abandon the naval college, though this is strenuously opposed.

WOULD PREVENT FREIGHT CARS CROSSING BORDER

RAILWAYS PREPARING FOR
HEAVY CROP MOVEMENT.

Must Keep Rolling Stock at Home to
Guard Against Grain
Blockade.

Ottawa.—In view of the particularly heavy crop movement from the western provinces during the next few months, extra precautions are being taken by the management of the Government and other systems of railways to keep Canadian freight cars on this side of the border.

At the present time there is a car shortage in the United States of 600,000 cars and when a Canadian car is permitted to cross the line, it is practically impossible to have it returned. The daily charge for retained cars from Canada was some time ago increased, but this has made no difference, the American railways being quite willing to pay the extra charge for the use of the cars. The necessity of keeping Canadian rolling stock at home if a grain blockade is to be prevented when the eastward wheat movement is at its height, is recognized and even at the best there is likely to be considerable congestion it is thought.

How Saskatchewan University Responded To the Call to Arms

When the call to arms sounded throughout the Empire in the ever-memorable summer of '14, the response of the universities was regarded as remarkable. But the remarkable thing would have been if, from the homes of culture and idealism, where honor and righteousness and truth are cherished as man's supreme possessions, the response had not been as prompt and full as it was. In that prompt and full response Saskatchewan had a voice.

Today, as a result of the war, the University has in its possession a symbol that will always be greatly treasured. It is a huge, red flag, spangled with dark-blue stars. There is a star for every University man that enlisted. In the middle of the flag is a rectangle of white dotted with red stars. Those red stars represent the Fallen; there are sixty-six of them.

Entering the main building of the University, the visitor is at once arrested by the array of names enscrollled along the wall of the two main corridors. These are the honored names of student warriors. It would almost seem that some invisible, cunning intuition guided the architect when he planned that unusual frieze, destined to be so soon and so eloquently inscribed.

Those University corridors have become vocal for all time. Year in and year out, as new cohorts come in, they will be reminded of the blood-purchased honor gained for the University in the grim years of war; and the silent prompting of those tablets will not be without effect.

The University at Saskatoon was five years old in 1914. Those five years saw the going up, on the very heart of the prairie, of the splendid, white-stone, buildings which are to-day the pride of the Province. Those five years saw the coming of the first graduate in the history of the university. Those five years saw the first gathering in some town of officers increased to thirty, while the student body shot from 75 to 400. The prospect was golden.

Came the nightmare of August, 1914, and the shadow of war, falling over the world, caught the young University. By the following year no less than eleven members of the staff and over 180 of the students had gone overseas. Every department sent its quota—engineers, lawyers, theologians, and men, again marching off together.

"We are confident," said Dr. Murray in his report for 1914-15, "that our students who have gone forth will bring honor and glory to their country and their University. Their ranks include the very best of our members, the most generous, the most unselfish, the most intelligent, the most industrious, as well as the most daring and courageous. When we selected the phrase, 'Deo et Patriae' (for God and Country) as our motto, we little thought that the supreme test of our devotion to our Country was so near at hand."

That confidence of the University which the President expressed was abundantly justified, and in his first post-war report Dr. Murray thus speaks:

The Imperishable Glory.
"If in the last five years we cannot show an outward and visible growth in buildings comparable to that of the first five, we can show an achievement that will live in the history and cast a glory upon this University and the men who played their part nobly in these dark years, a glory that will make the material and flashy achievements of other years appear sordid, mean and petty."

"In these sombre years nearly three hundred and thirty students and teachers took up arms for human liberty and human rights. They fought with a bravery and a divine disregard for self that will bring the flush of pride to the cheeks of countless generations as they read the epics of their golden deeds. Of that number a full hundred suffered wounds and serious illness; thirty-four were selected for signal honor by their Sovereign; and sixty-six sleep as heroes sleep, robed in the

Scholar, athlete, singer, poet, beloved alike by colleagues and students, dread of false foe and the idol of his comrades in arms, Professor Bateman, dying in France, has added a golden leaf to the book of the humanities he taught.

perishable glory of brave and noble deeds to see them in the fullness of their grandeur, but as we roll away on the wheels of time from the happenings, they will rise majestic, like mountain peaks from the receding plain. Too near are we to speak without undue emotion of what they were and did, and of what their going means to us."

To one familiar with the University a glance down the scroll of the fallen brings home how tremendous the loss has been. Early in the list is the honored name of Reginald John Bateman, first professor of English at the University, one of the first to answer the call and one of the last to fall. Joining up as a private in 1914, he quickly rose to the rank of sergeant; went overseas with the 28th Battalion, being recalled in '16 to the command of a company in the Universities Battalion. He fell—a major—in the late summer of '18. Truly here was

"a man, take him for all in all, (We) shall not look upon his like again."

Scholar, athlete, singer, poet, beloved alike by colleagues and students, dread of false foe and the idol of his comrades in arms, Major Bateman, dying in France, has added a golden leaf to the book of the humanities he taught. Fit means are being taken at the University to perpetuate the memory of this "paradise" spirit, beautiful and swift."

Next to Major Bateman's name comes that of Harold John Blair, who for conspicuous bravery as a scout officer was awarded the M.C. He had obtained his degree in Arts at the University and would have entered the Presbyterian ministry. His sermon is preached and the world is listening yet.

A little lower in the list is William Henry Davis, also an M.C., one of the early graduates of Emmanuel, an affiliated College of the University. He enlisted as a chaplain and met his death while bearing out wounded in the battle of Amiens. His M.C. came for bravery in the hell that was Passchendaele.

The name of William Yeates Hunter next catches the eye. A brilliant student of English, Capt. Hunter, after graduation, received an appointment as instructor at the University, ably seconding the efforts of Professor Bateman. Like the professor, Captain Hunter fell in France. There died an accomplished gentleman, a fine soldier and a poet and writer of no mean order.

James Ross Macpherson, D.S.O., of the year '15, was also a poet, whose verses in the University magazine were, it is generally agreed, of outstanding merit. Major Macpherson rose from the ranks to the position of second-in-command of that distinguished regiment, the Princess Pat's. James Gordon Hill, a clever law student, perished at Courcellette on the Somme, being first blinded. A prince of good fellows was Hills, with

a delightful sense of humor and the keenest of minds.

Let the name of Arthur Lloyd complete the selection—a selection made almost at random of men known more intimately than others to the writer. Arthur was the youngest son of Dr. G. E. Lloyd, of Hart Colborne fame, after whom Lloydminster was named. Dr. Lloyd's two other sons, Exton and Percy, also graduates of the University, fought bravely on the western front, the elder gaining an M.C. All three boys were badly wounded, but Arthur alone mortally.

He had enlisted before being of age, was a sergeant while still in his teens, and fell as an officer. He fought as he played the college games, with all the vigor and flashiness of youth; and he typifies that host of eager young manhood, lifeblood of the University, who in the words of Brooke—"Poured out the red, sweet wine of youth."

So far as is known the following honors fell to Saskatchewan University men:

- 18 M.C.'s.
- 18 Military Crosses.
- 9 Military Medals.
- 3 Distinguished Conduct Medals.
- 3 Mentioned in Despatches.
- 2 Distinguished Service Order.
- 1 Croix de Guerre.

The head of the Khaki University was Dr. Edmund H. Oliver, first Professor of History in the University and now Principal of the affiliated Presbyterian College. For his work in France he was mentioned in despatches and promoted to the rank of Lieutenant-Colonel. Captain Gilmore, who achieved immense things for the Khaki University, was a graduate of the University. He has subsequently been ordained to the Presbyterian Ministry. Several other Saskatchewan University men assisted in the Khaki University, both in their units in France and in the colleges which were subsequently formed. Captain J. B. Allen, M.C., had the honor of being the first British officer to enter Baghdad.

Certainly the record of the Provincial University is one of which it and the Province may well be proud. Traditions have been established which will be a good thing after, call forth their highest and best. Although the college halls are so new as still to be bright from the mason's strokes, yet it may be said that the University is hallowed and consecrated by the memories of the men who have wrought for their honor, and who have translated her motto into a glowing epic—"Die et Patriae."

Cutting Corn for Silage

It Should Not Be Too Green Or Too Dry.

"When is the best time to cut corn for silage?"

Corn is ready to go into the silo when the kernels are hard, when the lower three or four leaves are brown (as the result of maturity and not of firing and the husks are beginning to dry. If cut when much greener than this, the silage will be too acid or sour and unpalatable and will not keep well. If it is much ripper than indicated, the finely cut corn will not pack satisfactorily and pockets or spots of moldy silage may result.

If corn cannot be cut until it is quite dry sufficient water must be mixed with it when it is put into the silo to make it possible to pack it properly. The amount of water desirable will vary, but broadly it is quite dry sufficient water must be mixed with it when it is put into the silo to make it possible to pack it properly. The amount of water desirable will vary, but broadly it is quite dry sufficient water must be mixed with it when it is put into the silo to make it possible to pack it properly.

Canada's Opportunity For Increasing the Live Stock Industry

It has been computed by competent statisticians that the farm livestock of Canada has to-day a value of \$1,296,600,000.

Considering that the value of Canada's farm lands has been placed by the same authorities at \$2,792,230,000, we get a sort of comparative estimation which is rather startling.

Then we remember that in 1919 our dairy products attained a commercial value of \$252,300,000 against just \$146,000,000 in 1915, while wool and other animal products have more than doubled in the same period.

Evidently the Canada farmer has not been altogether asleep at the switch while the world was striving to fill in the huge hole was made in its store of provisions.

But by the way of juster comparison let it not be forgotten that the United Kingdom of Great Britain and Ireland with a farming area of 21,221,000 acres (Alberta alone has an area of 163,360 acres) has on its farms no less than 12,311,149 cattle, 27,062,680 sheep and 2,809,215 swine, against our 4,718,657 cattle, 2,600,000 sheep and less than 3,500,000 swine.

Canada is farming about 50,000,000 acres just now. It might be good and enlightening amusement for mathematically inclined readers to take out their pencils and figure out how many cattle, sheep and pigs Canada should own to compare well with the Old Country which has to import most of its stock feed supplies, a good deal of it from this very country.

"It is difficult for Canadians not acquainted with agricultural conditions on the other side to realize the importance we attach to our livestock resources," said the editor of the London, Eng., "Farmer and Stockbreeder," a few days ago in discussing the so-called embargo on our cattle.

"We have never refused to admit Canadian cattle to Great Britain," he explained, "but we prescribe the conditions under which they are accepted. We insist that imported cattle

shall be fat and ready for slaughter."

That old "embargo" bug-bear, no source of trouble to Canadian stockmen, who realize that we raise and have our cattle feed in this country, if we can only get hold of our supplies.

The public now realizes that during the 1914-18 period, price increases were due to enormous export demands of war; but we ought to be in the way of overcoming that difficulty now. What is Canada doing in that direction?

But foreign markets are fastidious—so indeed the home market has become under the pressure of high prices. The Dominion Livestock Commissioner reports that "It is estimated that had the 'common' quality beef animals sold at the public stockyards in Canada during 1919, carried enough fat and finish to grade as 'good' in quality, the additional revenue would have approximated \$10,000,000. Ability to carry weight and finish is a virtue not possessed by the beef animals sold at the public stockyards in Canada during 1919, carried enough fat and finish to grade as 'good' in quality, the additional revenue would have approximated \$10,000,000. Bob Long says:
"My Overalls and Shirts are the best made, because they are easy and comfortable. I designed them with the idea that you might want to stretch your arms and legs occasionally."

A winner in the Bob Long line of shirts is the Hickory Dick Jr. Ask your dealer for this big shirt; it wears like a true friend. Ask your dealer for Big 50—the big Blue Overall—the cloth that stands the test.

Saskatchewan Wool Output.

In the Province of Saskatchewan in the last four years the amount of wool consigned to the co-operative branch of the Provincial Department of Agriculture increased from 179 consignments weighing 69,704 pounds, for which the average price realized was 17 1/2 cents to 916 consignments weighing 294,068 lbs., at an average price of 61 1/2 cents per lb.

The Beauty of a Clear Skin.—The condition of the liver regulates the condition of the blood. A disorder of liver causes impurities in the blood and these show themselves in blemishes on the skin. Parnele's Vegetable Pills in acting upon the liver act upon the blood and a clear, healthy skin will follow intelligent use of this standard medicine. Ladies, who will fully appreciate this fine quality of these pills, can use them with the certainty that the effect will be most gratifying.

Growing Northwest.

The Canadian Customs Department, is going to establish a station at Port Burwell, Hudson's Bay. A steamer recently left Halifax, N.S., with police and Customs Officers. They intend to remain at Port Burwell for two years after their arrival.

Will Morning Never Come

DOES this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avoid the development of serious nervous trouble.

By improving the quality of the blood and building up the nervous system this food cure brings new energy and strength to the whole body.

50 cents a box, 6 for \$2.75, all dealers, or Remondin, Hies & Co., Ltd., Toronto.

Miss Vanity is Very Old

Ancient Egyptians Extravagant in the Matter of Toilet Requisites.

The Egyptian belle of 5000 B.C. was no less extravagant in the matter of toilet requisites than is the beauty of today. She required among other things, a long stone palette with a hollow in the centre, in which to mix her green eye-paint. This palette also held a very delicate sea-shell, wherein she mixed the paint with the necessary grease for stiffening her eyelashes; ivory hair-pins which rivaled in length the hat-pin of the present day, and ivory combs. All these articles were shown at an exhibition in London of the trophies dug up by the members of the Egypt Exploration Fund. There was also a small red clay of a face, with green paint bringing the eyes into extraordinary prominence.

The housewife of seven thousand years ago had household goods similar to those of the housewife of today. She had copper pans and strainers, stone blades, wooden bowls and copper mirrors, and to decorate her home she acquired alabaster vases and painted pottery vases.

THE TREASURE OF GOOD HEALTH

Easily Maintained Through the Use

of Dr. Williams' Pink Pills. There is not a nook or corner in Canada, in the cities, the towns, the villages on the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other they have brought back to bread-winners, their wives and families the splendid treasure of new health and strength.

You have only to ask your neighbors, and they can tell you of some rheumatic or nerve-shattered man, some suffering woman, ailing youth or anemic girl who owes present health and strength to Dr. Williams' Pink Pills. For more than a quarter of a century these pills have been known not only in Canada, but throughout all the world, as a reliable tonic, blood-making medicine.

The wonderful success of Dr. Williams' Pink Pills is due to the fact that they go right to the root of the diseases in the blood, and by making the vital fluid rich and red strengthen every organ and every nerve, thus driving out disease and pain, and making weak dependent people bright, active and strong. Mr. W. T. Johnson, one of the best known and most highly esteemed men in Lunenburg county, N.S., says:—"I am a Provincial Land Surveyor, and am exposed for the greater part of the year to very hard work travelling through the forests by day and camping out by night, and I find the only thing that will keep me up to the mark is Dr. Williams' Pink Pills. When I have home for a trip in the woods I am as interested in having my supply of pills as provisions, and on such occasions I take them regularly. The result is I am always fit. I never take cold, and can digest all kinds of food such as we have to put up with hastily cooked in the woods. Having proved the value of Dr. Williams' Pink Pills, as a tonic and health builder, I am never without them, and I lose no opportunity in recommending them to weak people whom I meet."

Dr. Williams' Pink Pills should be kept in every home, and their occasional use will keep the blood pure and ward off illness. You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Millions For Implements.

With the heaviest demand in years, farm implement dealers anticipate a shortage soon. During the year \$6,000,000 worth of implements have been sold in the province.

Minard's Liniment For Burns, Etc.

Importance of Flax.

In 1914 thirteen mills for retting and scrutching flax were in operation in Canada; at present there are sixty-four all in Ontario and Quebec. The most important development has taken place in Western Ontario. In 1919 there were 2,400 tons produced worth \$5,000,000, or with the seed \$6,000,000. This does not include the flax seed grown in the Canadian West, where up to the present time flax straw has not been utilized. It has now been demonstrated that in Canada a fibre of most desirable quality can be grown.

Minard's Liniment for sale everywhere.

W. N. U. 1394

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada

Apple Crop in Quebec.

It is estimated that the apple crop this year in the Province of Quebec will total 100,000 barrels, or more than 25 per cent. increase over last year's production. The quality of the crop has never been better.

Some wise old saws have lost their teeth.

Miller's Worm Powders are par excellence the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

Fortune in Fish.

It is estimated that the salmon pack in British Columbia will be worth \$12,000,000 this year. The runs have been particularly good in the Fraser River and in the rivers of the Northern part of the Province.

This is to certify that I have used MINARD'S LINIMENT in my family for years and consider it the best liniment on the market. I have found it excellent for horse flesh.

(Signed)

W. S. PINEO.

"Woodlands," Middleton, N. S.

Big Jump in Revenue.

The total revenue of Canada in August of this year was double that of August, 1919. It is expected the total revenue for the fiscal year will be \$150,000,000, compared with \$58,900,000 in the previous twelve months.

to 8x2 a thousand. This lumber is located
about 20 miles west of Carstairs.—Call
R511, Atkins Phone Station or write W.
C. Sullivan, Bottrel, Alta.

Local & General

R. W. McFarlane, manager for the Alberta Pacific Elevator Co. locally, has shipped up to Tuesday evening, 4 cars of wheat, 3 cars of oats and 3 cars of rye. He reports wheat is grading very good, oats are only fair but rye is the best that has been shipped from this district.

Anyone contemplating having a sale by auction, be sure and get acquainted with the local Auctioneer Mr. F. W. Pullen.

A dance under the auspices of the Crossfield and District Agricultural Society will be held in the I. O. O. F. Hall on Friday evening, October 8th, 1920. Dancing to commence at 9 o'clock. This will be the first big dance of the season and a good time is assured. The ladies are asked to kindly provide the refreshments.

The Annual Meeting of the Women's Guild will be held at the home of Mrs. S. Willis, on Saturday evening, October 2nd, at 8 p. m. sharp. All members and Church women are requested to attend.

Facts and Figures

A few facts about the big money a farmer makes when he gets a good crop and the reason he meets you with a smile when you ask him \$7.00 a day for stacking, 10 to 16 cents per bushel for threshing, \$7.00 and \$8.00 for flour and offer him 50 cents per bushel for his oats and other grains in proportion.

A well known farmer has an 100 acre field of oats in the Crossfield district, for which he hired all the work done. He has yet to thresh it and haul it. I am going to give you the figures on one acre of this field. It was summer fallowed last summer so therefore he has been two years getting this crop which I am estimating at 60 bushels per acre. I am valuing the land at \$50.00 per acre as that is his price on it. The land is close in and hauling expenses are comparatively small. It is not in the town school district so the taxes are low. I am allowing him 50 cents per bushel for his oats which at the present time are less than that.

Expenses on one acre are as follows:

Plowing	\$3.50
Discing and double harrow	1.25
Drilling	1.25
Seed at \$1.10 per bushel	3.50
Hauling, cleaning and treating seed	.20
Cutting grain	1.50
Stacking grain	.50
Twine	.60
Threshing at 10c.	6.00
Hauling grain at 5c	3.00
Taxes	.35
Boarding men	.40
Hail Insurance	1.00
Interest on Money Invested in Land and Crop at 8 per c 5.60	

Amount obtained through sale of grain on one acre: \$28.65
60 bushels at 50c \$30.00
Less expenses as per above 28.65
Net profit on one acre \$1.35
This enormous profit is obtained after two years of work and worry. There are also several incidental expenses which are not considered, such as repairing fence, supplying granaries and several others of a similar kind.
I have not made this summary to discourage anyone from going on the land, but just as a reminder to some in this world that "All isn't gold that glitters."

From one who tills the soil.

For Sale.—Light o' Day Cooking Range in good order. Phone 105, Crossfield-e

IMPORTANT NOTICE

TAX RECOVERY ACT

TO ALL PARTIES WHOM IT MAY CONCERN

Take notice that the provisions of the Tax Recovery Act are operative for the year 1920 within the bounds of every Municipality, Urban and Rural, and every Improvement District of the Province of Alberta.

The land will be advertised for sale soon after August 14 as possible, by the Municipal Taxing Authority, and on the day and hour and at the place mentioned in the advertisement, will be sold for the taxes in arrears as of date December 31st, 1919, together with the costs. Owners, mortgagees, encumbrances, and any others interested should communicate with the municipal authority levying the tax. The arrears and costs may be paid up to the time of sale, and after the sale there is one year for the redemption of the land.

J. H. LAMB,

Deputy Minister of Municipal Affairs.
